## PROFILE

---

I am certified HSE Professional with 2-year experience working for upstream oil and gas industry. I have developed HSE documentations from scratch for and Oil field reinstatement project while also monitoring the implementation of HSE Management System at site. I have also contributed towards ensuring compliance with client's HSE requirements for the project. Besides I planned and conducted HSE training to the field and office staff on regular basis. I am looking for a challenging experience to contribute to the company while also honing my skills in HSE Field.
